

Protect your leads with CCI's new Pedestal Paks

A fully "non-slip" product that keeps your component leads suspended and protected

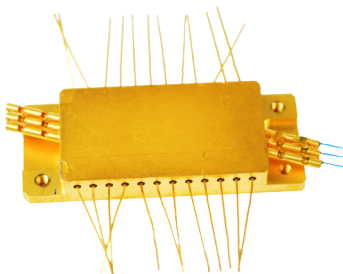

Electronic components can be severely damaged by electro-static discharge during the manufacturing and testing processes. The Pedestal Tacki-Pak is perfect for sensitive, fragile, and expensive components.

CCI Stock Part Number	Pedestal-Pak ID	Pedestal Diameter
PTP2525-200	2 9/16 X 2 9/16 X 1/2	.203
PTP2525-375	2 9/16 X 2 9/16 X 1/2	.375
PTP2525-500	2 9/16 X 2 9/16 X 1/2	.500
PTP2525-750	2 9/16 X 2 9/16 X 1/2	.750
PTP3545-750	4 5/8 X 3 1/2 X 1/2	.750

- New Pedestal-Pak design suspends your leads while holding only the body on the tacki surface.
- Component is held in place by permanently ESD safe foam.
- No tooling is required.
- ESD safe packaging.
- Provides ample physical protection.
- Cost saving versus "gel-type" packaging.

- All Pedestal Paks come with Tacki Level III

Don't let this happen to your parts.
