Why choose Durastat?

DURASTAT

- The right size
- Custom interiors
- Great cushioning
- Lightweight
- Reduce shipping costs
- Save Space

VS.

MOLDED TOTES

- Wrong size
- Poor cushioning
- Poor ESD protection
- Inefficient use of space
- Heavy

Customize Your Durastat Tote

CORSTAT

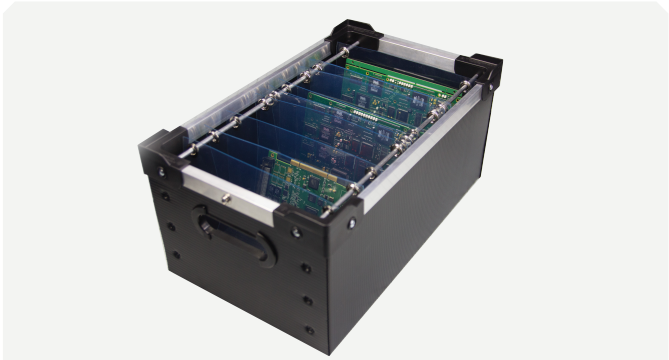
Durastat totes with economical Corstat bent over partitions to fit your exact board sizes and safely cushion.

CONDUCTIVE FLUTED PLASTIC

Fit your Durastat tote with bent over or single-wall conductive fluted plastic (CFP) partition sets.

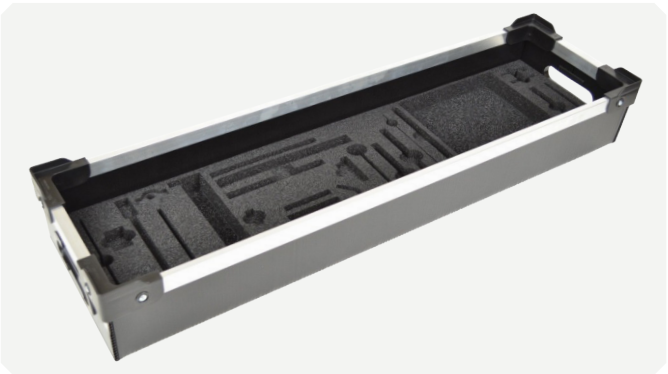
CARD GUIDE

Fixed or adjustable thermoformed PCB card guides hold delicate boards by the edges. Conductive or static dissipative card guide slotting is made to match your PCB.



KSF FOLDERS

Install KleanStat Flex folders in your tote in seconds for clean handling without bagging labor. It's a great long-lasting solution to fight FOD & ESD.



FOAM

Build a Durastat tote with permanent soft or firm die-cut foam inserts to physically protect in shipping or handling.

THERMOFORMED INSERTS

Build Durastat totes around the perfect thermoformed handling tray for your devices. The best in ESD, physical and FOD protection.

Durastat TRAYS

Use the Durastat lightweight design to make the perfect handling system to suit any product size and shape. Maximize shelving and carts or workstation space.
